

MOST COMPLETE REFERENCE MAP OF HONOLULU EVER PUBLISHED

--Keep this Map for Reference--

THE BANKS.
To find any of the places mentioned in the index, locate its letter and number on the margin, and look for the point on the map where a line drawn, across the map from each, meets. For example, No. 1, the Aquarium. It is marked in the index "27-J." On the upper border find the figure "27" and on the side "J," and the figure 1 appears where a line down from "27" and across the map from "J" would meet. That is where the Aquarium is.

THE AQUARIUM.
While smaller than some of the great fish exhibitions in the world, the aquarium in Honolulu, No. 1 on map, contains the most remarkable and brilliantly colored fish on show anywhere. They display all the colors of the rainbow, and are of shapes so extraordinary that they do not seem real until seen disporting themselves in the waters at the aquarium. At times there is a live shark in the larger pen. The aquarium, as shown in the map, is on the beach, and is on the lines of the Rapid Transit cars.

ARCHIVE BUILDING.
The Archive building, No. 2, is a comparatively new structure erected by the territorial government for the preservation of government documents. Its files contain hundreds of valuable documents, some of them dating back to the earliest times in Hawaiian history. There are in the collection autograph letters from the great explorer Vancouver telling of his relations with the old-time Hawaiian chiefs, and letters, treaties and other documents bearing the signatures of the rulers of the world for several centuries past, in their dealings with the Hawaiian monarchy, and later, republic.

BISHOP MUSEUM.
The Bishop Museum, No. 4, contains beyond all comparison the greatest collection of Polynesian relics and scientific specimens, etc., in the world. It has the materials for months of anthropological study, and also has relics of old-time days which are of absorbing interest. The leis, kahilis, feather cloaks, arms, fishing tools, etc., of old Hawaii are here preserved on a very extensive scale. Both as a spectacular exhibition of the most interesting historical collection of Hawaiian and other Polynesian exhibits in the world, and as a collection of scientific value, this Museum has no equal on earth.

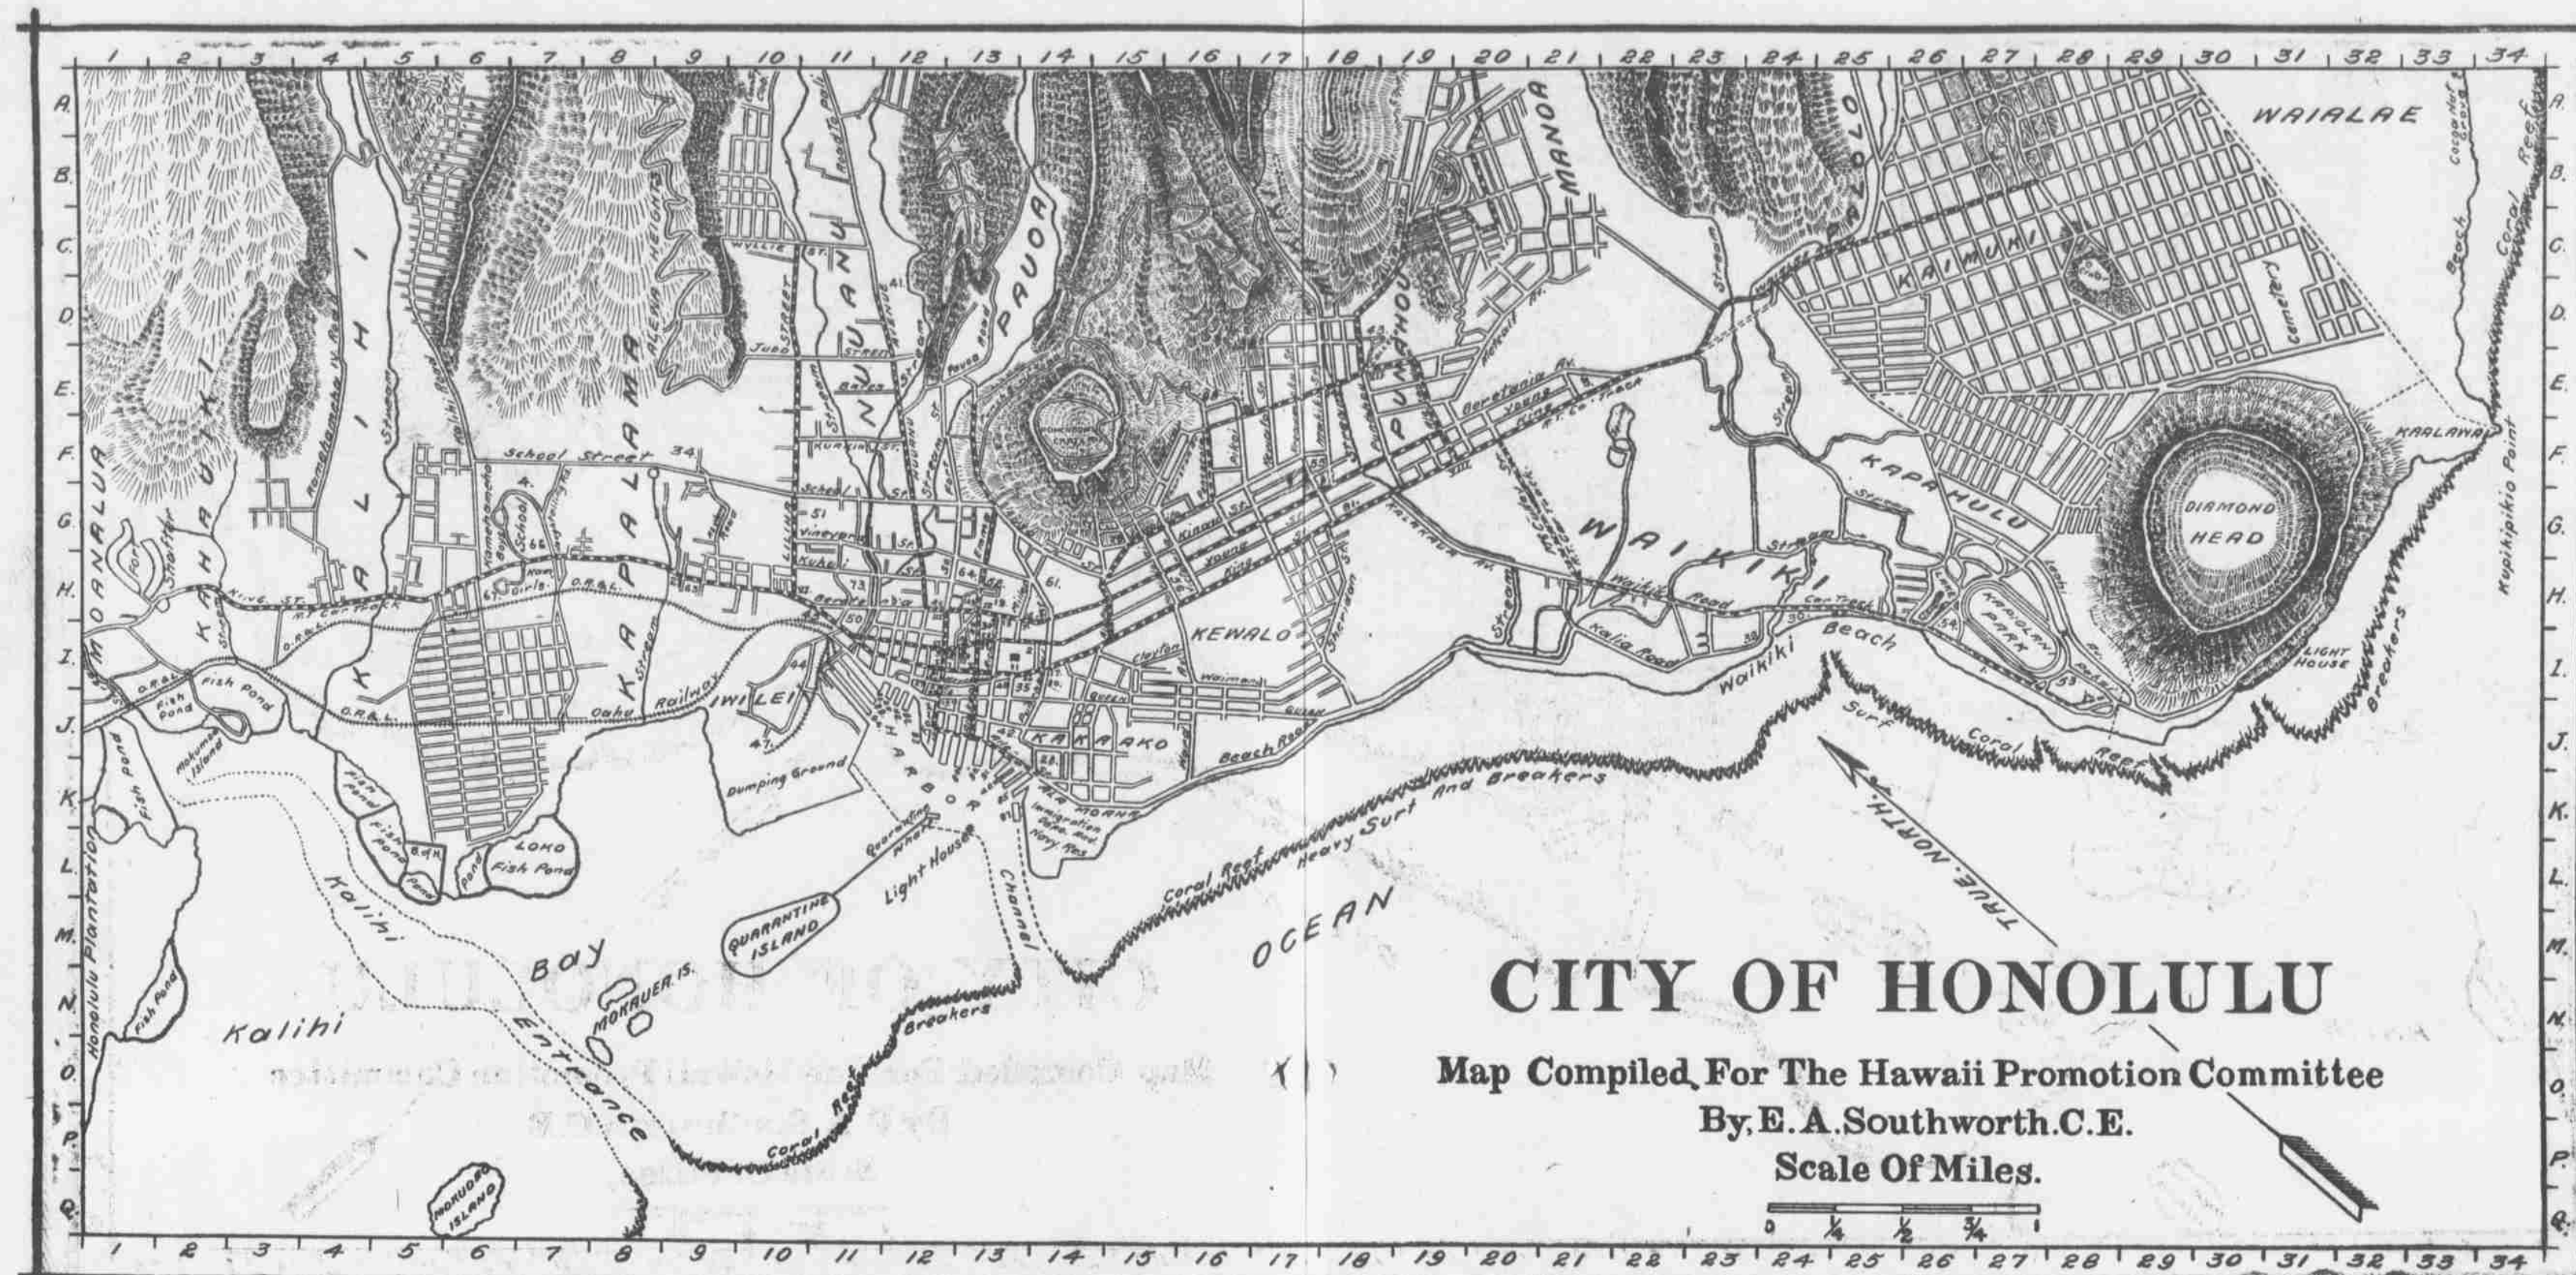

THE CHURCHES.
Honolulu is a city of prosperous churches, and, in general, a profoundly religious community. The four largest in the list shown on the map are the Central Union, Roman Catholic Cathedral, St. Andrew's and Kawaiahao. Strict denominational lines are not drawn in Honolulu. The sects work together in harmony and all religious leaders are able to meet on a common platform in working for the moral uplifting of the community. Kawaiahao is a native church.

HONOLULU'S HOTELS.
The Alexander Young Hotel, No. 29, extends for an entire block in the center of the city. It is a modern structure, fire proof, and in every respect up to date. In general fixtures and construction it is equal to the best and its furnishings are elaborate and beautiful. It has a roof garden from which a very fine view may be had in every direction, and on almost any night of the year, especially when there is moonlight, this roof terrace is a fairyland which entrances many visitors and guests. The Young building was built by Alexander Young.

The Moana hotel, No. 30, on the beach at Waikiki, has a reputation all over the world. Its dining room is partly above the waves, and its gardens border on the sands. Bathing here is enjoyed twelve months in the year. In December as in May, the people of Honolulu are able to delight in swimming by moonlight.

The Seaside, No. 32, near to the Moana, has equal bathing grounds, and also a large park, in which are cottages that Congressional Nicholas Longworth and wife, the president's daughter, spent their honeymoon, and they left declaring their intention to get the cottage again for another summer vacation.

The Royal Hawaiian hotel, No. 21, is in the heart of the city and was the great center of hospitality

- MAP OF HONOLULU.**
The following table contains a list of the places numbered on the map, which are to be found, as explained by the paragraph at the head of the article on this page.

and entertainment under the monarchy. It has entertained many of the world's most distinguished citizens. It has large tropical grounds and is often illuminated at night by hundreds of variously colored electric lights strung amid its trees and around its buildings, making its evening concert scenes like fairyland dramas.

A NOTABLE STATUE.
The Kamehameha statue, No. 36, is in front of the Judiciary building. It is a striking bronze figure, representing Kamehameha the Great, often called the Napoleon of Hawaii. He was the first of the island chiefs to bring all the islands under one rule, and was therefore the first real king of the Hawaiian Islands. After concluding the wars by which he established his rulership, he proved a wise and benevolent monarch, and his memory well deserves the high place it holds in Hawaiian history.

THE ART LEAGUE.
The Kiloheana Art League, No. 37, is one of Honolulu's strongest art and literary, as well as social organizations. It has on display many fine paintings of Hawaiian scenes, and is a center of much activity, social, artistic and literary.

LUNAILLO HOME.
The Lunaillo Home, No. 38, is for aged and indigent Hawaiians. It was founded under the will of King Lunaillo, who left a fortune for its establishment and maintenance.

LODGE BUILDINGS.
The Masonic Temple, No. 39, and Odd Fellows' hall, No. 39, are both handsome structures. In lodge membership Honolulu is very strong, all the prominent secret societies having large representation.

THE MAUSOLEUM.
The royal mausoleum, No. 41, is the resting place of the last of the Hawaiian monarchs. Here lie the bodies of the various descendants of the line of Kamehameha, now extinct.

OAHU COLLEGE.
Oahu college, No. 43, is a high class school for children and youths. It has very beautiful grounds and buildings. The tuition is kept up to a high standard by a large force of teachers. Many of the leading citizens of Honolulu, and their wives, are graduates of this institution, which has sent to Yale, Harvard and other American universities, young men who have led in athletics and class work. It is claimed that in proportion to her number of students, Hawaii leads the Union in the number of her classmates who have won places on the Varsity teams of various

colleges. The Elks Club, No. 21, has the most central location in the city, occupying the second floor of the Cooke building, on King street, near Fort. Like three of the other home clubs it is of recent origin. It has handsomely furnished apartments and entertains many tourists passing through this port en route across the Pacific. The officers are: William H. McInerney, Exalted Ruler; Olaf L. Sorenson, Esteemed Leading Knight; James D. Dougherty, Esteemed Loyal Knight; Samuel A. Walker, Esteemed Lecturing Knight; Henry C. Easton, Secretary; Mollard H. Drummond, Treasurer; George J. O'Neil, Tiler; Edwin H. Paris, Trustee, Three Years; Charles G. Bockus, Esquire; Lewis H. Underwood, Inner Guard; Joseph M. Oat, Chaplain; William G. Ashley, Organist.

The Pacific Club, No. 22, is by far the oldest of Honolulu clubs. It was founded in 1852, as a British club, and ever since has had among its members leading men
